PALISADES POPULAR PERENNIALS

Plants for the Rockery
or Herbaceous Border

Large Growers
of Plants for Every Kind of
Hardy Garden

THE PALISADES NURSERIES, INC.
SPARKILL, NEW YORK

Will You Chum With Us Among the Plants?

We doubt whether, in all garden endeavors, anything is quite as pleasing as planning. To dream of greater garden pleasures is the prerogative of every man and woman owning even a small piece of ground. To work towards the materialization of such dreams by careful scheming and planning is greater fun than many actually get out of the work among the plants themselves.

So here is an invitation to plan for greater and better gardens of Hardy Perennials or Herbaceous plants.

Special Service It will be a pleasure, at all times to assist those eager to start with specific suggestions how to make any sort of old-fashioned hardy garden or rock garden. Just tell us what particular location you wish to utilize, what soil you have and how much sun the location gets and we will, with pleasure, submit suggestions for your consideration.

Hardy Herbaceous Plants Stand first in beauty, interest, and general utility, and however limited in size a garden may be, space can always be found for Hardy Old-Fashioned plants. Our collection of these charming plants contains the showiest up-to-date varieties worth cultivating. April and October is the best time for planting them, so that they can become well established before the warm or freezing weather sets in.

Selection of Varieties The choice of subjects for "New Borders" or "Renewing the Old" ones, is often bewildering to those unacquainted with the height, color, habit, time of flowering, etc., of the plants and much trouble and disappointment would be avoided by leaving the selection of plants to us, and to plan out the positions they are to occupy. In making these selections we shall be pleased to include any particular plants our customer may desire embodied, or omit any they may already have.

We give on next page of this circular a list of over one hundred kinds, with botanical and common names, with some of which you may have a fellow-feeling, and if planted, even in the least conspicuous corner or border, they will make it the most interesting and beautiful part of the garden.

TERMS OF SALE

We print real prices, which as long as unsold and without engagement we are willing to accept. The prices are net, except being subject to 5 per cent discount when cash accompanies order; otherwise payable in thirty days from date of invoice on approved credit. Packing and postage charges at cost, f. o. b. Sparkill, N. Y. To meet reputable competition, we will reduce our prices still further on being given the opportunity.

No less than three of one kind furnished at dozen rates, twenty at 100 rates, 250 at 1,000 rates, unless otherwise specified. Clumps (or plants of extra large size) can, in most cases, be supplied at double the prices named, which are for ordinary size plants, field grown for more than one season. These clumps or extra large plants will be sent only when specially ordered.

General Catalogue of Hardy Perennials, including New, Rare and Meritorious Varieties Suitable for Rockery or Herbaceous Border, sent on receipt of 25 cents, for postage.

Sedum Acre and Semperivium globiflorum.

Plants Love Companionship!

Above dainty Sedum Acre is seen tenderly huddling around Semperivium globiferum—and it is a peculiar fact that these two seem to thrive best in each other's company. On our own grounds, the Sedum becomes established voluntarily around this Semperivium. This is just one of the many instances responsible for

A Rockery's Enduring Charm

Not only does a rock garden offer the ideal location for many quaint and curious plants but the plants themselves bring constant and ever-changing surprises. Nor need your grounds be spacious to hold a rock garden. A small corner, plenty of rocks, a little soil and some plants combined will make you the cutest garden imaginable.

You Can Always Start With Pot-Grown Plants

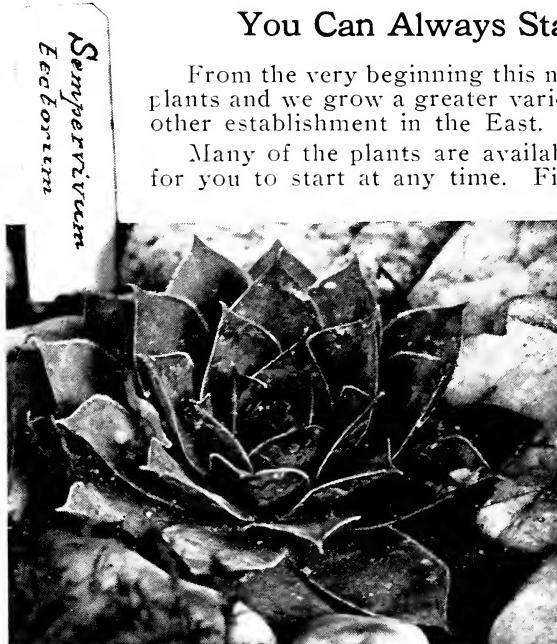

From the very beginning this nursery has made a specialty of rock garden plants and we grow a greater variety in greater quantities, perhaps, than any other establishment in the East.

Many of the plants are available grown in pots. This makes it possible for you to start at any time. Firmly established root system will prevent any shock to the plant. Just prepare your ground and set them—they will never stop growing.

The Quaint Bullock's Eye (*Sempervivum tectorum*)

The very symmetrical rosettes, as shown, average four to five inches in diameter, and are best at home between stones and crevices in the rockery. In July they bear red and purple flowers.

The approach of Fall weather usually sees the red brown tips of rosettes turn to a deeper hue. Altogether a charming plant, particularly in clumps or colonies. Strong plants, 25c each; \$2.50 per dozen.

List of Perennials

Botanical Name	Inches High	Common Name
Achillea Tomentosa	6	Milfoil
Ajuga Genevensis	6-10	Bugle Wee
Alyssum Saxatile Compactum	6	Gold Dust
Anemone Pennsylvanica	6-9	Windflower
Anemone St. Brigida	6	Windflower
Arabis Alpina	6-9	Rock Cres.
Armeria Maritima	4-6	Sea Pink
Armeria Leuchaena	6	Sea Pink
Bellis Perennis	4-6	English D.
Aubretias	4-6	Rock Cress
Campanula Carpatica	5	Bell Flower
Portenschlagiana	4	Flowers
Cerastium Tomentosum	4	Mouse Ear
Cerastium Biberistini	4	Mouse Ear
Dianthus Plumarius	6-8	Hardy Pink
Dodecatheon Media	12	Shooting Star
Cardamine Pratensis	9-12	Double Cud.
Geum	9	Barren Strawberry
Globularia Tricosantha	6-8	Globe Daisy
Gypsophila Cerastoides	3-4	Baby Breath
Helianthemum	8	Sun Rose
Helexine Solieri	3	Bluets
Hutchinsia Alpina	3	Liver Leaf
Hepatica Triloba	6	Candytuft
Iberis	9	Crimean Iris
Iris Pumila	8	
Iris Cristata	9	
Lathyrus Latifolius	6-9	Hardy Sweet Pea
Linum perenne	12	Flax
Lychnis Alpina	15	Maltese Cross
Mertensia Virginica	12	Bluebells
Nepeta Mussini	10	Ground Ivy
Myosotis	6	Forget-me-not
Phlox Subulata	6	Ground Pine
Phlox Divaricata Canadensis	9	Dwarf Phlox
Phlox Amoena	6	Dwarf Phlox
Phlox Ovata Carolina	6	Laurel Leaf
Plumbago larpentae	10	Leadwort
Potentillas	6	Cinquefoil
Primula veris	7	English Cowslip
Primula Auricula	7	Alpine Primrose
Saponaria Ocyoides	6	Rock Soapwort
Silene Shafts	6	Moss Campion
Sedum Acre	6	Stonecrop
Sedum Atropurpureum	9	Stonecrop
Sempervivums	3	Hen and Chickens
Santolina Incana	12	Lavender Cotton
Spirea Japonica	9-12	Meadow Sweet
Thymus Serpyllum	6	Wild Thyme
Thymus Languinosus	3	Woody Thyme
Thymus Citrosum	8	Lemon Thyme
Tunica Saxifraga	9	Coat Flower
Trilliums	6-9	Ground Lily
Thalictrum Minus	6-12	Meadow Rue
Violas in variety	6-8	Violet, Painted
Vinca Minor	5	Myrtle

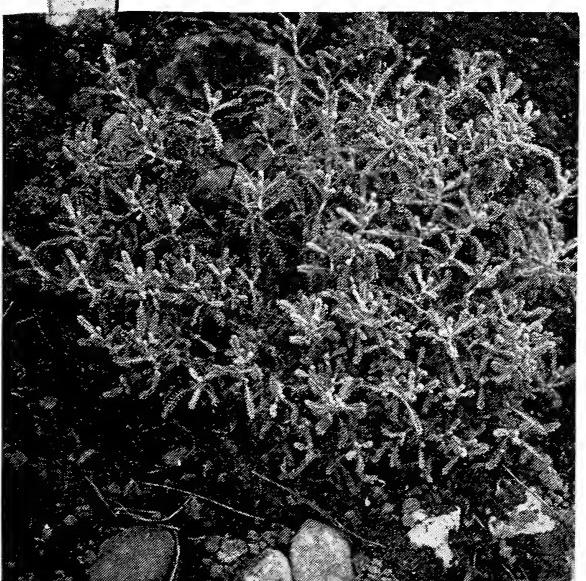

Cost of the above plants: 25c each; 25c each

A full description of each of the above may be had by sending a few cents for postage. Copy of which will be sent. Amount will be credited on order.

Jewel of the Hardy Plant World

(Santolina incana.) A dwarf, evergreen, sweet smelling herb with delicate silvery white foliage. Frequently used to emphasize borders, but in our opinion, most attractive as specimen plants, in the Rockery. Price, \$2.50 per doz.

Most Suitable for Rock and Wall Gardens

Common Name	Color
Single Nasturtium	Yellow
Gold Dust	Blue, rose, and white

The Sedum Family for Unique Rock Gardens

The Stone crops of which Stone Orpine shown below, is a very interesting member, we offer in ten distinct varieties. They vary from three inches to a foot high, and all love warmth, sun and stony surroundings.

Stone Orpine (*Sedum reflexum*) is one of the best for dense ground covers. Yellow flowers in August. Strong plants, 25c each; \$2.50 per dozen.

Jewel of the Hardy Plant World

(*Santolina incana*.) A dwarf, evergreen, sweet smelling herb with delicate silvery white foliage. Frequently used to emphasize borders, but in our opinion, most attractive as specimen plants, in the Rockery. Price, \$2.50 per dozen.

Trillium (Wood Lily; Wake Robin)
Tritoma (Red-Hot Poker)
Valeriana (Garden Heliotrope)
Veronica (Speedwell)
Viola (Sweet-scented Violet)

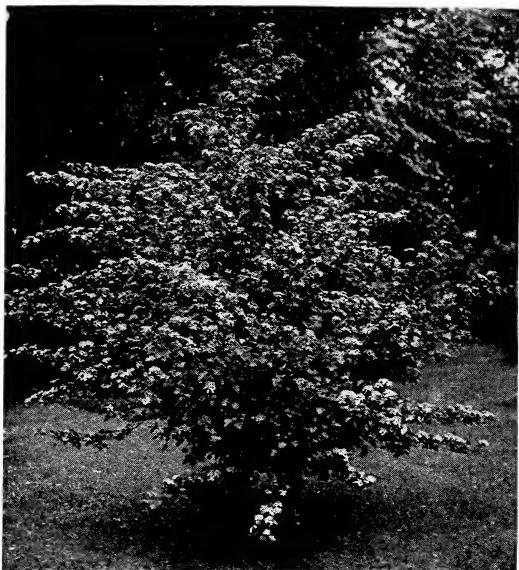

Helichrysum Augustifolium

A perennial of the Everlasting or Straw-flower family that promises to become quite an acquisition for the Rockery. The downy gray foliage (in color not unlike that of Dusty Miller among the biennials) furnishes a most pleasing contrast with other plants. The tiny, double, pure white flowers will keep like any other straw-flower, if properly dried or cured. Price, **25c each; \$2.50 per dozen.**

A full description of each of the above Hardy Perennials may be found in our General Catalogue of Hardy Perennials, including new, rare and meritorious varieties suitable for Rockery or Herbaceous Border, sent on receipt of 25 cents for postage, which amount shall be credited on order.

Price for strong plants of all varieties named on this page: Except where noted, 25c each; \$2.25 per dozen; \$17.00 per 100. No less than three plants of one variety furnished at dozen rates, or twenty at hundred rates.

Crataegus—Hawthorn.

Symphoricarpos.

Shrubs for the Lawn

Following is a list of shrubs which are especially well adapted to planting on the home grounds around the house and which will prove a delight from early spring until late fall.

BUDDLEIA (Butterfly Bush, or Summer Lilac). A new shrub from China, which deserves a place in every garden, for its heliotrope-colored flowers are produced from July until the coming of frost. Very fragrant. **75c each; \$7.50 per doz.**

DEUTZIA crenata. Double white flowers tinged with rose. Blooms the middle of June.

DIERVILLA (Weigela). Three colors, flowering in June in almost any soil, and pretty the season through.

EXOCHORDA grandiflora (Pearl Bush). White flowers in large auxiliary racemes. Star-shaped fruit. Thrives in any good soil. 6 ft.

FORSYTHIA (Golden Bell). Showing masses of yellow flowers; very early.

LILAC (Syringa). An old favorite in which several new forms are now offered.

MYRICA cerifera (Candleberry Myrtle). Small evergreen shrub with pointed flat shining leaves.

Prices at which we will furnish large-size, well-branched shrubs for immediate effect of any of the above varieties, except where otherwise noted. 50 cents each, \$5.00 per doz.; \$40.00 per 100. No less than six of one variety sold at dozen rate; twenty-five at hundred rate.

Hedge Plants

BERBERIS Thunbergii (Japanese Barberry). A low dense shrub with spreading, spiny branches that make it invaluable as a hedge plant. Racemes of little pale yellow flowers followed by clustered scarlet berries persisting through winter. Little oval leaves turn a brilliant orange to scarlet in fall. Endures partial shade; cattle do not browse on it. 2 to 4 feet.

Each Doz. 100
1½ to 2 ft. height \$0.40 \$4.00 \$30.00

CRATAEGUS Crus-galli (Cockspur Thorn). A well known native Thorn with very long, sharp spines or thorns; fruit bright red; valuable for hedges. 10 feet.

Each Doz.
2 to 3 ft. high \$0.90 \$ 9.00
3 to 4 ft. high 1.10 11.00

and reddish flowers, followed by gray berries in the autumn. Medium. Each Doz.
12 to 18 inches \$0.35 \$3.50
1½ to 2 feet50 5.00
3 to 4 feet 1.00

PHILADELPHUS (Mock Orange; Syringa). A well known, hardy shrub. White, fragrant flowers. Blooms in June. Makes a large shrub.

SPIRAEA Van Houttei (Bridal Wreath). A wonderful shrub which looks in June almost as though weighted down with snow.

SYMPHORICARPOS recemosus (Snowberry). Most valued for its large, white berries, which hang on the branches until long after snow flies.

SYMPHORICARPOS vulgaris (Coral Berry; Indian Currant). Compact shrub, valuable for its abundant and persistent foliage and fruit. Flowers small, red and yellow, clustered, followed by dark red berries. 5 to 6 feet.

VIBURNUM (Snowball; High Bush Cranberry). Flowering in June, but with ornamental scarlet berries, which last well into the winter.

well-branched shrubs for immediate effect of any of Each variety plainly labeled. 3 to 4 feet high, less than six of one variety sold at dozen rate;

CRATAEGUS oxyacantha (English Hawthorn). The famous English hedge plant beloved of their gardens and roadsides. Spiny tree with clusters of sweet-scented white or pink flowers and later dark-red fruit. Can be planted as specimen or as hedge plant, as it stands close shearing. 10 to 20 feet. Each Doz.

3 to 4 ft. high \$1.25 \$12.50
4 to 5 ft. high 2.00 20.00

LIGUSTRUM Ovalifolium (California Privet). The standard hedge plant with the almost evergreen glossy foliage. Can be sheared to any shape. Thrives in city conditions, also at the seashore. Not hardy north of Boston. Medium. Price of strong, well rooted plants:

Doz. 100
2 to 3 feet \$1.50 \$12.50
1½ to 2 feet 1.00
Specimens, extra large for screens: Each Doz
4 to 6 feet \$0.50 \$5.00

A.B.M.C.

Climbing and Rambler Roses of Special Merit

All the varieties offered here are hardy, retain their canes throughout the winter, and require very little pruning.

Crimson Rambler. Best known of the Climbing Roses and most popular; no need of describing its clusters of crimson flowers and many other virtues.

Dorothy Perkins. A splendid new shell pink Climbing Rose. The flowers are borne in clusters of 30 to 40, and sometimes even 50 to 60. The flowers are large, very double, sweetly scented and of a beautiful shell pink.

Dr. W. Van Fleet. The flowers when open run 4 inches and over in diameter, are a delicate shade of flesh pink, full and double, with delicate perfume, and fine for cutting. The foliage is a peculiar shade of bronze green, large and glossy. The variety is a vigorous grower, immune from mildew.

Excelsa (Red Dorothy Perkins). The color is an intense, clear crimson maroon, with tips of the petals tinged scarlet. Flowers are large and double.

Prices for any of the above-named varieties: Strong 2- to 3-year-old field grown plants, 75c each; \$7.50 per dozen.

Gardenia. A strong and vigorous grower, producing large, double flowers singly on the stems. Bright yellow in bud, with open, cream color; 3 to 4 inches in diameter. This plant blooms profusely and the fragrance is delightful. Glistening evergreen foliage. Certainly one of the best of this type.

Hiawatha. Brilliant scarlet; bears large clusters of single flowers; bright, effective and useful for planting in masses.

Silver Moon. The flowers run 4½ inches in diameter, clear silvery white in color, the centers filled with bright yellow stamens. It is very floriferous. The flowers are borne on strong stems, 12 to 18 inches long, and are delicately fragrant. Foliage bronze green, glossy, and immune from mildew.

White Dorothy. (New.) Pure white sport of Dorothy Perkins. A splendid companion for the pink variety, as it flowers at the same time.
